

Trading Rules for Money Managers

These trading rules apply to Money Managers with clients taking advantage of the Tallinex 100% credit bonus scheme which increases the balance, and therefore the equity and free margin, of a trading account but cannot be withdrawn as cash.

Rules for PAMM accounts:

- Default leverage for PAMM accounts and client accounts is 1:50 (maximum of 1:100 on request)
- Maximum one-time drawdown: Tallinex will close all open PAMM positions if any PAMM client account experiences drawdown of 20%.
- Maximum anytime drawdown: Tallinex will close all open PAMM positions and suspend PAMM facilities if any PAMM client account subsequently experiences drawdown of 25%. (effectively 40% of net deposits).
- **Maximum lot size per trade:** 0.10 lots/1,000 balance
- **Maximum net position:** 0.20 lots/1,000 balance
- **Maximum net position over weekends & major holidays:** 0.10 lots/1,000 balance
- Tallinex are entitled to close all open positions and suspend PAMM facilities should any situation arise with the potential for significant risk to Tallinex credit bonus deposits and/or Tallinex client capital.
